- Citrix XenApp
- Citrix XenApp Fundamentals
- Citrix XenDesktop

Sigma and Citrix Free Your Organization from Limitations

Today's modern organizations enable their employees to be productive and efficient from anywhere they work. With competencies that encompass state-of-the-art data center virtualization, desktop virtualization and disaster recovery solutions, our partnership is designed to help you support the most valuable trends in business today, including BYOD (bring your own device), workshifting, the consumerization of IT, executive mobility and cloud – so you can free both employees and IT from the limitations of the traditional IT environment.

As a Citrix Gold Solution Advisor, Sigma Solutions offers the perfect mix of business acumen and technical expertise to help large enterprises align their IT operations and management functions with their organizational objectives:

- Deep experience delivering data center, cloud, application and mobile solutions
- Broad network of sales, technical and dedicated resources to solve business problems
- A holistic view to align our customers' IT infrastructures with their business initiatives and validate concepts with lab and demo equipment
- Local presence to ensure we are responsive to your immediate needs
- Specific focus on fast resolution of all computing challenges

Citrix Solutions

Through our proven C.I.O. (Consult, Implement, Operate) delivery methodology, we can help you deploy our joint Sigma and Citrix solutions:

- **Enterprise Cloud Networks:** Ensure the best performance, connectivity and availability of applications with our NetScaler and Branch Repeater offerings. Gain control and confidence with full application security and visibility, while reducing bandwidth consumption and simplifying IT in branch locations.
- **Desktop Virtualization:** Increase productivity by creating a consistent user experience without the IT overhead associated with desktop implementation and support. A virtual desktop infrastructure will deliver the right desktop resources to various end-user constituencies, while ensuring performance, availability, scalability and manageability.
- **Cloud Convergence:** Leverage infinite scale and flexibility across private and public clouds.
 - *CloudGateway* securely delivers access to users everywhere – even on BYODs – and keeps IT in complete control.
 - *CloudBridge* enables a transparent and secure shift of Web and application servers to the cloud.
 - *CloudStack* allows you to quickly and easily transform virtualized data center resources into automated, elastic, self-service clouds for the best security, performance and reliability.

Why Sigma Solutions?

Vision: Our experience designing and integrating enterprise data center solutions gives our clients access to skills and expertise beyond their in-house IT teams and traditional resellers.

Execution: Our highly-trained professional services team configures and implements complex projects with hardware and software from multiple vendors and suppliers.

Operations: Our managed services team removes the burden of managing specific IT resources, allowing in-house IT teams to focus on more strategic initiatives.

Expertise: Our unmatched technical expertise has been developed via investments in training, certification and technologies.

Proof: Our extensive lab and equipment pool is available for proof-of-concept development and "try before you buy" demonstrations.

Sigma Solutions Citrix Resources
