- Strongest SLAs in the industry with 99.999 availability
- Manage cloud and dedicated network security policies centrally in the customer portal
- ISO 27001, SOC1, SOC2 compliance and validation
- Role-based access and 2-factor authentication

# Sigma CloudSource Powered by Rackspace®

Do you want to experience the benefits of cloud computing, but maintain a centralized approach to IT governance? Sigma CloudSource Powered by Rackspace® is your best-fit solution. It is designed for customers who require the flexibility and elasticity of the cloud, as well as the enhanced security and performance characteristics of traditional hosting – the best of both worlds.

This hybrid cloud solution is all about creating the right architecture to support the right application and the evolution of that application over time. With Sigma CloudSource Powered by Rackspace:

- You can mix and match compute platforms to best suit your needs.
- You'll be able to handle sudden increases in traffic with on-demand scaling capabilities.
- You'll finally be able to reduce the burden of data center operations and free up your IT team to focus on strategic work that moves your company forward.

**Why Sigma CloudSource for Rackspace cloud computing?**

Your local Sigma team learns about your business, customers and strategic goals. Then, in collaboration with Rackspace, we build customized solutions from the ground up, starting with proofs of concept through application testing with performance assessment on to broad deployment and training.

Test Dev, Archive, Disaster Recovery, Exchange, SharePoint and Platform-as-a-Service – we provide the necessary services that support even the most dynamic and demanding environments. Sigma and Rackspace are tightly integrated with a number of partners, including EMC® and NetApp®. We deliver Rackspace-hosted EMC solutions, including Isilon, VNX and VMAX/Symmetrix. Additionally, we support cloud service offerings built on efficient NetApp storage and data management solutions.

Sigma Solutions is the solutions integrator of choice for enterprise companies needing a technology partner that easily transitions from the strategy of the executive suite to the operations of the data center. Visit sigmasol.com or call 888.895.0495 to learn more.
